### CABLE SHIP HAS A PERILOUS TRIP

Storms Endanger Vessel, Crew and Precious Wire Rope.

HAWAIIANS ARE REJOICING

HAPPY OVER THE ENDING OF THEIR ISOLATION.

(By Pacific Cable.)

Honolulu, Jan. 2.—A public celebration will be held here tomorcompletion will be held here tomor. +
row in honor of the successful +
completion of the trans-Pacific +
cable. The day will be observed +
as a public holiday. A number of +
congratulary addresses by public +
officials will be made during the
afternoon, followed by a ball at +
night.

time the line left the Silvertown the cable end was hauled upon the soil of picturesque sans souch park amid the shouts of thousands and the crash of band music, rendering a cable march dedicated to President Mackay. Just as the cable touched the shore a heavy shower of rain fell upon the gaily attired multitude, but danger of a wetting was ignored in the eagerness to catch a glimpse of the line that is to connect them with the reserved.

Wreath Laid With "Alche"

There was no official ceremony at the time, further than the laying of a lei, or native wreath, upon the end of the cable by Mrs. Haws, who repeated the customary native greeting,

Peated the customary nalive greeting, "Aloha."

The Silvertown remained at anchor holding to the line until near noon Monday, Dec. 29, when she moved out upon the course prescribed by the chart in paying out the cable. Six miles were laid to a point off Koko Head. At this point rough seas were encountered and the line was buoyed. A start was immediately made for Molokai channel to investigate whether or not the buoy had weathered the buffeting to which it had been subjected for nearly three days. Fortunately, however, no disaster had occurred. The buoy was riding in safety, but the marker buoy, which had been dropped near it on Friday merning. Dec. 26, had disappeared. The seas were running even higher than three days previous. The wind continued to blow half a gule from the picking up of the buby could have survived and no thought was given to making the attempt at this time. Another marker buoy was put down some distance away and the Silvertown returned to Honolulu harbor and anchored offishore. It was agreed between Captain Morton and Chief Cable Engineer Benest that no further work would be attempted until the wind abated and the sea calmed. The sea showed signs of abating on Fuesdey, Dec. 20, but the big steamer made no move. Wednesday also passed in idlences, with very little wind, and for a time it was thought advisable to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, not to make an attempt to complete the work. It was finally decided, however, The Silvertown remained at anchor

risk the chance of lifting the cable bearings. She then proceeded to Hono-from the bottom of the sea in any except calm weather. It was reasoned Dec. 26. cept calm weather. It was reasoned that another day would see the end of the period of the northeast trades, the duration of which surprised even the oldest residents of Honolulu.

On Thurzday, the first day of the new

On Thursday, the first day of the new year, scarcely a breeze stirred the waters of the harbor, and advice came to the ship from Diamond Head lighthouse that the channel was quite calm with only a madeat. with only a moderate swell running. A few minutes after 4 o'clock in the morning the Silvertown heaved anchor and made a start down the bay. Prospects of the cable connection on the first day of the new year created intense interest in the city, where the enthusiasm had been somewhat dulled by the long delay.

Cable Is Picked Up.

At daylight the Silvertown arrived off Koko Head, where the shore end had been buoyed since Monday. With liftle difficulty the line from the bottom was spliced upon deck and passed over the stern sheaves, and a start was made for the outer buoy. Shortly after I o'clock in the afternoon the Silvertown reached the point where the San Francisco end was buoyed. The sea was not rough but the swell rolled the vessel considerably. Great care was officials will be made during the afternoon, followed by a ball at hight.

Holding a ball at hight.

ONOLULU, Jan. 2.—(By Pacific Cable.)—The first section of the submarine cable that is to connect the United States with its innect the United S

The Calabar-Pie fee section of the consecuence with the content of the content of

is the Silvertown's bow with nalloon buoys attached at intervals of fifty feet. A half mile of heavy line was hauled ashore by steam power without hitch or halt.

One hour and five minutes from the time the line left the Silvertown the cable end was hauled upon the soil or picturesque Sans Souci park amid the shouts of thousands and the crash of band music, rendering a cable march dedicated to President Mackay. Just as the cable touched the shore a heavy shower of rain fell upon the gaily attired multitude, but danger of a wetting was ignored in the eagerness to catch a glimpse of the line that is to connect them with the rest of the world.

Wreath Laid With "Aloha."

From Tuesday noon to Wednesday

noon the deepest water was crossed averaging 3,000 fathoms. Danger on Christmas Day.

Thursday, Dec. 25, Christmas day, was not a pleasant one to the people on the Silvertown, and the English custom of celebrating the day was postponed to a more propitious time. The wind veered around to the northeast and increased to a velocity greater than that experienced on Monday and Tuesday. Just before midnight a final change of tanks was made, the afteriank being emptied of its 996 miles of cable and the bight transferred to the forward tank. The change was made extremely hazardous owing to the now Thursday, Dec. 25, Christmas day,

GREETINGS TO PRESIDENT.

Roosevelt Receives and Sends Wessage Over New Cable.

Washington, Jan. 2.—The following cablegram was received at the White House at 2:30 this morning, dated Honolulu, Jan. 1, 9:33 p. m.:

"The President, Washington:

"The people of the territory of Hawail send their greetings to you and express their gratification at the in-

wan send their greetings to you and express their gratification at the inauguration of telegraphic communication with the mainland. We all believe that the removal of the disadvantage of isolation will prove the strong factor in the upbuilding of a patriotic and progressive American commonwealth in these islands. (Signed.)

"HENRY E. COOPER, "Secretary of Hawaii."
The following is the reply of the president to the message of Secretary

"White House, Washington

Hon, Henry E. Cooper, Secretary of Hawaii, Henry E. Cooper, Secretary of Hawaii, Honoluh:

"The president sends through you to Governor Dole and the people of Hawaii his hearty congratulations upon the opening of the cable. He believes that it will tend to make the people of Hawaii more closely knit than ever to their fellow citizens of the mainland, and will be for the great advantage of all our people. all our people. (Signed.)

# TO WORKING GIRLS

FREE MEDICAL ADVICE Every working girl who is not well is cordially invited to write to Mrs. Pinkham, Lynn, Mass., for advice; it is freely given, and has restored thousands to health.

Miss Paine's Experience.

"I want to thank you for what you ave done for me, and recommend "I want to thank you for what you have done for me, and recommend Lydia E. Pinkham's Vegetable Compound to all girls whose work keeps them standing on their feet in the store. The doctor said I must stop work; he did not seem to realize that a girl cannot afford to stop working. My back ached, my appetite was poor, I could not sleep, and menstruation was scanty and very painful. One day when suffering I commenced to take Lydia E. Pinkham's Vegetable Compound, and found that it helped me. I continued its use, and soon found that my menstrual periods were free from pain and natural; were free from pain and natural; everyone is surprised at the change in me, and I am well, and cannot be too grateful for what you have done for me."—MISS JANET PAINE, 530 West 125th St., New York City.—25000 forfelt if erjoinal of about letter proving geneineness cannot be produced.

Take no substitute, for it is Lydia E. Pinkham's Vegetable Compound that cures.

# FRANCE SENDS

Orders Detachments of Zouaves to Moorish Frontier.

FIGHTS FOR THE "ONE-EYED" PRETENDER SAYS HE IS SUP-PORTING MULAI MOHAMMED.

here from Oran, Algeria, announce that detachments of Zonaves (French troops) have been ordered to the Moor-

Glbraltar, Jan. 2.—The dispatch of Spanish reinforcements to Morocco has been countermanded.

Tangier, Morocco, Jan. 2.—The pre-tender has issued a proclamation an-nouncing that he is not fighting for the throne for himself, but for the sultan's imprisoned brother, Mulai Mo-hammed, surnamed the "One-eyed." It is now confirmed that the sultan has ordered his brother's release and that

NEW YUKON GOVERNOR.

NEW YUKON GOVERNOR.

Change Is Made in the Chief Executive.

Vancouver, B. C., Jan. 2.—A special from Ottawa says:

Frederick T. Congdon, crown prosecutor for the Yukon territory, will succeed J. H. Ross as governor. Mr. Congdon arrived here a few days ago from Dawson and will not return to the north until the early spring. It the meantime affairs are being administered by mounted police and other officials at Dawson, who keep in touch with Ottawa by wire.

Mr. Congdon is a young man and was a prominent supporter of the Laurier government before he went to the Yukon.

SUCCEEDS WITH AEROPLANE

SUCCEEDS WITH AEROPLANE. SUCCEEDS WITH AEROPLANE,
New York, Jan. 2.—William A. Eddy,
who is well known in connection with
kite flying investigations, has successfully experimented, sayz a dispatch from
Bayonne, N. J., to the World, with an
aeroplane similar to the one with which
Alexander Graham Bell recently made
the discovery that led him to announce
that the flying machine of the furure
would be of this type. Mr. Eddy's experiment was in corroboration of Professor Bell's statement that an aeroplane
kite could be made that would carry the
weight of a motor and a man, and thus
solve the problem of aerial navigation.
As a result of his experiments Mr. Eddy
asserts that Professor Bell's discovery
will revolutionize flying machine invention.

### WASHINGTON PERSONALS. (Special to The Herald.)

Washington, Jan. 2.—Mrs. Thomas Fitzgerald of Ogden is in Washington visiting her mother, Mrs. George P. Senator C. D. Clark of Wyoming to-day introduced Misses Ida and Gertrude Riner, daughters of Judge Riner of Cheyenne, to President Roosevelt.

FIRE LUSS DECREASES.

New York, Jan. 2.—The fire loss of the inited States and Canada for the year of the states and Canada for the year of the year

New York, Jan. 2.—A man, apparently insanc, tried to gain entrance to the private office of General Greene, the new police commissioner, at police headquarters today, saying that he was the new commissioner, inspector Brooks inveigled him to the Mulberry street station. Two loaded revolvers were found in his pocket. GERMANY IS GAINING.

AFTER GENERAL GREENE.

Berlin, Jan. 2.—Partial returns from the consular districts indicate that Ger-many's exports to the United States in-oressed in 1992 by about \$5,000,000 over those of 1991. The imports from the United States fell off, but no reliable figures are available.

DEATH BRINGS SPEECH. Jackson Mich., Jan. 2.—Miss Clarare, aged 19, is dead in Madison coun.
Miss Ware was deaf and dumb, an is never known to have uttered an inligible word until a few hours befor r death, when she called upon mem is of the family to come to her.

## LEMON JUICE FAILS LAW FOR INEBRIATES

### So as to Be Practicable Remedy.

New York, Jan. 2.-Dr. W. H. Park. to determine the value of lemon juice in destroying typhoid bacilli, regardng which much has been published recently. Several microscopical examin ations of cultures of typhoid bacilli which had been subjected to the action of the lemon juice showed that, al-Paris Jan. 2.-Telegrams received though the acid killed the micro organisms, it required too much acid and too much time for the chemical action to take place to render lemon juice as an agent practicable. Dr. Park's negative opinion in regard to the efficacy of the opinion in regard to the emcacy of the acid as a typhoid prophylactic was corroborate, for after the bacilli had been acted upon by a 5 per cent solution of the acid for thirty minutes it was found that all of them had not been

destroyed.

Dr. Park, when questioned regarding the experiments, said:

"My suspicions were confirmed by the tests. It is far safer to boil the water or filter it properly than to trust to lemon juice to destroy any typhoid bacilli that may be in it. Of course, the statement that the acid would destroy any typhoid germs that might be contained in oysters by sprinkling it on the outside is ridiculous."

### WILL SHARE PROFITS.

Pressed Steel Car Company to Divide With Employes.

New York, Jan. 2.-Announcement was made today that another industrial corporation has inaugurated a plan to share its profits with employes. The corporation has inaugurated a plan to share its profits with employes. The Pressed Steel Car company proposes to carry for each of its employes who has been six months or more in its employ, from one to twenty-five shares of the preferred stock, now paying 7 per cent dividends.

dividends.

The men will pay 5 per cent down and the same amount in monthly installments thereafter, the company charging 4 per cent for moneys loaned to carry the stock. As the dividend is 7 per cent, the buyer will have the advantage of 3 per cent difference.

### CALIFORNIA CLIMATE.

Its Happy Vagaries Enable It to Suit Every Human Condition.

The climatic conditions of California, The climatic conditions of California, when closely considered, upset completely all one's preconceived notions of the relation between latitude and temperature. The latitude of San Diego, the southern city of the state, is about that of Charleston, South Carollina, while Los Angeles lies a little farther south than Memphis, Tennessee. The northern line of California is on the same parallel with Boston, Massachusetts. chusetts.

chusetts.

From these facts one is apt to conclude that although Southern California may have a subtropical climate, adapted to the growth of citrus fruits, yet the northern part of the State must have the rigorous winters of the North Atlantic States, or of Iowa or Nebraska on the upper Mississippi. This is, however, very far from being

Diego the summers are warmer and the winters but little more severe than in the cities named. All along the coast the climate is cool during the summer, with considerable low fog near the ocean, which during the day floats up to the summer. floats up to the summit of the Coast Range. This gives an abundance of moisture and an equable temperature. During the winter this belt is almost frostless, and the rainfall is, except in he extreme south, from twenty-five o fifty inches annually.

The valley belt, extending six hundred miles parallel to the coast, is quite warm through the summer, with scarcely any rain from May to Octo-ber. In winter it is colder than on the coast, with much rain.

In many of the northern valleys the

palm, fig and olive find a congenial home, while the orange and lemon reach perfection, ripening from four

Stockholders' Meeting.
